HON. W. ROSS THATCHER

On behalf of the Government of Saskatchewan, I extend hearty congratulations to the Knights of Columbus for sponsoring the Saskatchewan Centennial Indoor Games.

Similar undertakings by the Knights in the past have met with outstanding success, and I am confident that this year's will follow the same pattern. By their activity in this field, the Knights are giving first-class leadership in the encouragement of healthy competition and good sportsmanship.

Good luck to all the athletes taking part and, once again, congratulations to all who have taken part in organization of the Games.

Sincerely,
HON. W. ROSS THATCHER,
Premier of Saskatchewan.

UNIVERSITY OF OREGON

One outstanding miler will be among the four men on Bill Bowerman's University of Oregon squad for the two-mile relay.

Bowerman was to choose between Dave Wilborn, who posted a 3.56.2 mile in 1967, and Roscoe Divine, who ran the mile in 3.57.2. Wilborn has been called "the greatest talent I ever had" by coach Bowerman.

The other members of the relay team will be Jere Van Dyk, Jay Reverman and Mike Crunican.

Van Dyk doesn't need an introduction to Saskatoon fans. He came here as a relative unknown last December and upset Bill Crothers in both the 600 and 880 yard events. He won the award as the outstanding athlete in the meet.

SYMBOL OF SERVICE

WHEN OVER 75,000 FARMER-MEMBERS
DO THEIR BUSINESS THE 'POOL' WAY
THERE MUST BE A REASON.

There is! For over 40 years the Saskatchewan Wheat Pool has been providing reliable service to Saskatchewan farm families. Members are proud of their organization and the part it played in developing the agriculture of the province. The Pool belongs to them, it is theirs. They decide the policy and have a say in how things are run.

By supporting the Pool they are helping themselves. It just makes good sense to patronize your own business.

Isn't that reason enough?

S. L. BUCKWOLD
Mayor of Saskatoon

Track and Field Meets have played an important part in the community life of Saskatoon, and have always had the full support of Saskatoon citizens.

The Saskatchewan Centennial Indoor Games will attract top athletes to our City, give encouragement to local participants, and provide exciting entertainment for our citizens.

Appreciation is expressed to all who have assisted in the organization of this event, with special thanks to the sponsors, The Saskatoon Councils of the Knights of Columbus, and Mr. Jack Wells, the Meet Director.

My best wishes for another successful Meet!

S. L. BUCKWOLD
Mayor

The Committee wishes to acknowledge with thanks the contribution made

CITY OF SASKATOON CENTENNIAL COMMITTEE
for the Awards given for the Saskatchewan Centennial Indoor Games

CLARENCE GARVIE — HONORARY MEET DIRECTOR

Mr. Clarence Garvie, athlete, scholar, and gentleman, has been appointed Honorary Meet Director for the K. of C. Centennial Indoor Games for his fine contributions to Track and Field.

Although it is not commonly known Clarence was one of the first coaches in Track and Field in Saskatchewan to introduce such innovations as the "Western Pole" and the high jump.

His specialty, however, was in the Pole Vault which event he coached at the University of Saskatchewan in the days of "Joe Griffith".

Clarence Garvie's talent as a track coach was recognized by the Provincial Government who made wide use of his abilities in the conduct of clinics for both coaches and athletes across Saskatchewan.

Although his administrative duties make it impossible for him to be active in coaching he still remains active in the promotion of track and field and football.

UNIVERSITY OF SOUTHERN CALIFORNIA

The greatest track and field power in the United States during 1967 was the University of Southern California.

They won both the AAU outdoor and the NCAA outdoor team point titles and during the course of the year, their athletes accounted for 13 new world records. They are coached by Ken Matsuda.

At the Centennial Indoor Games, USC will be represented by a superb two-mile relay team, which will include Neil Duggan, John Link, Richard Joyce and Carl Trentadue.

Duggan will defend the mile honors he won here last year; Max Lowe and Grey Heet will be in the high jump; and Bob Seagren and Paul Heglar are entries in the pole vault.

Duggan once ran a 3.56.1 mile and is one of the top-ranked milers in the world.

CY MacDONALD

I am pleased to have this opportunity to congratulate the Saskatchewan Centennial Indoor Games Committee for their contribution to the youth of Saskatchewan in the staging of this annual indoor track meet.

Track and field has always been one of the most popular sports in Saskatchewan, and I am pleased that meets such as this are now making it possible for the young people to participate throughout the winter months. There is no doubt that the increased participation made possible by the longer season will result in better performance.

Activities such as this, that give our young people an opportunity to use their energies and talents in the search of excellence, are vitally important to their development as active and responsible citizens.

To the athletes, may I express on behalf of the spectator public, a thank you for your dedication and attendance. It is my hope that each of you is able to achieve his or her best performance while here at the Saskatchewan Games, and that you return home safely and pleased for having taken part.

C. P. (CY) MacDONALD,
Minister of Welfare and
Minister-in-Charge of
Youth Agency.

WILL KLEIN

On behalf of the Saskatchewan Centennial Corporation, I am pleased to wish every success to the Saskatchewan Centennial Indoor Games sponsored by the Saskatoon Knights of Columbus.

During 1967, Saskatchewan has been host to literally thousands of Centennial events and it is fitting that we close the year with a major program that had its beginning in 1965, our province's Diamond Jubilee year.

We hope this third edition of the Saskatchewan Indoor Games will ensure its future success through the spectator support it receives. This program is worthy of province-wide participation from both an athletic and spectator point of view.

The national Centennial Commission is pleased to recognize this event and has made a substantial grant so that the 1967 Games would be the best ever.

We sincerely hope the Indoor Games which have been established in these celebrative years will continue and prosper in the future.

We congratulate all of those public-spirited citizens who have supported the 1967 Games and solicit their continued support so that Saskatchewan may retain its image of leadership in providing athletic opportunities to her young people as well as those from neighboring provinces and countries.

WILL KLEIN, Executive Director,
Saskatchewan Centennial Corporation.

WM. P. ARGAN

On behalf of the Knights of Columbus in Saskatchewan, the occasion of the Centennial Indoor Games, affords me the pleasure to extend highest praise and congratulations to all those responsible in contributing to this spectacular athletic presentation.

It is now generally understood that one of the most vital factors in maintaining a healthy climate in our modern society, is the efforts made by man in serving God through youth.

Coupled with the generosity of many people, patrons and organizations who have given unselfishly of their time and effort, the Knights of Columbus have provided a youth program which will add to the development of good citizens, not only in our province but throughout Canada. The pertinent point, however, is not in that which we see during these games but to the unseen good of the past and the unknown good of the future which has been accomplished and will be attained because of these men. It is our pleasure, the Knights of Columbus of Saskatchewan to sponsor the Elementary Boys and Girls Relay event.

With sentiments of esteem and every best wish to the sponsors and the competitors, I remain,

WM. P. ARGAN, State Deputy
Knights of Columbus,
Saskatchewan State Jurisdiction.

BOB SEAGREN

BOB SEAGREN

One year ago, Bob Seagren came to Saskatoon, nursing a cold, wondering whether his fibre glass pole had arrived safely and in possession of the world indoor pole vault record at 17 feet, half an inch.

Forty-eight hours later, Seagren helped put Saskatoon on the world track and field map by raising the world indoor record to 17 feet, one inch.

But it was just the start of a banner year for the University of Southern California star. He reached 17 feet, two inches at Albuquerque and later 17 feet, three inches at Cleveland — and that's where the indoor record presently stands.

Outdoors, he set a new record, too, but before the summer ended, the record went to his team-mate Paul Wilson at 17 feet, eight inches. Seagren's best outdoors is 17 feet, seven inches — second best of all-time.

Seagren passed up a trip to South Africa to come to Saskatoon again — and that's been the best news of the winter for Saskatonians.

INDOOR TRACK AND FIELD MEETS TO COME IN 1968

This year Saskatoon will have three indoor track and field meets. Ten years ago there wasn't a single high calibre indoor track meet west of Toronto.

The development of indoor track competition is one of the necessary things that must be done to give Canada depth in international track and field. What indoor track and field has meant to the United States' squads may be seen in a very few figures. Indoor track can do as much for Canada when joined with cross-country, University and high school support, and the building of field houses.

From the first post World War II Olympics through the 1960 Games, United States placed 130 track and field athletes in sixth place or better. 129 of those athletes came from American colleges and universities. Back of those 129 Olympic places was, for example, a pool of 18,180 students who competed in varsity track and field. Of these 18,180, some 11,469 competed indoors.

Canada until this year, when the first Western Canadian indoor varsity championships will be held, had no official indoor varsity championships. There was little, almost no, intervarsity squad competition until Winnipeg, under Jim Daly, set up such a meet four years ago. This compares to the 2200 indoor varsity meets held in the United States during the 1962-63 season.

One should note here that the first "conference" Indoor Varsity Championships ever held in Canada will be put on right here in Saskatoon on February 17.

It is hoped that the first annual Canadian national varsity indoor championships will be held in 1969 or 1970, and, hopefully also, in Saskatoon.

The introduction of Varsity indoor track will give continuity to a young competitor's development; just as club running can give him further years of development after varsity years.

Along with the continuity given by the permanence of universities, eventually, in Canada, there will have to come adequate indoor training facilities.

As this is written there is but a single adequate varsity and high school indoor training track facility in Canada. The Edmonton Kinsmen have built a field house to be opened in January 1968 with an indoor meet. The Edmonton field house will contain an eleven lap indoor track. This will give clubs and varsity teams in Edmonton a chance to train in all weathers.

In Saskatoon the clubs are deeply involved in Indoor Track. The original brief for the present indoor track was drawn up by Ralph Morris of the Saskatoon Track and Field Club; that track club, along with the Varsity and the AAU branch, helped finance the building of the first indoor track corners in Canada; the design committee for the Saskatchewan AAU track was made up, in part, of directors of the Saskatoon club. When the Riversdale Club was organized, it had indoor training programmes from its first year. The annual December meet is organized by a committee on which the clubs each have two members. The Clubs jointly agree on a director before anything else is done. And, thanks to the generous spirit of the Knights of Columbus, any and all funds netted from this meet go to these clubs.

A third club has been organized, the Holy Cross Club. Others will follow as the programme grows.

Both of the older clubs will take part with the Varsity in the Western Canadian Intercollegiate Athletic Association meet on February 17th. Both combine to put on the April 28th meet, the Saskatoon Indoor Championships. For many of us, that meet is the most fun of all. And unlike the December meet before this year of 1967, the clubs could say they showed a profit on their spring meet in the Kinsmen's Arena.

The clubs and Varsity have good training and meet programmes. What else do we need in Saskatoon and in Saskatchewan to advance the development of track and field? **First, we need the full participation of the high schools. Second, we need a regional year-round, all-weather training facility, that is, a field house.**

With full high school competition based on the use of school gymnasiums, with a field house for meets and specialized training, Saskatoon can become the Green Bay of track and field.

"SASKATOON'S MEATING PLACE" FREE DELIVERY

Specialized in Filling Home Freezers — also 10 lb. lots, etc.

NICK LUCYSHYN

We, the Knights of Columbus of Saskatoon, wish to extend a warm welcome to all competitors and coaches who come to Saskatoon from cities and towns throughout Canada and the United States to our Centennial Indoor Games. May your stay in Saskatoon be enjoyable and successful.

We wish to express our gratitude to all the participants in the various events for their interest in our Centennial Games. Your participation is essential for the success of this undertaking. We wish all of the athletes "Good Luck" in their competitions.

Our sincere "Thanks" to the directors of the Centennial Games, to the business community of Saskatoon, to the professional personnel, and to all who have contributed to the success of this important athletic event. Undoubtedly, without your cooperation, talents, and resources, such an undertaking would have been impossible.

The Knights of Columbus are very happy to sponsor the Games during Canada's Centennial Year. May our contribution towards our country's 100th birthday celebration be a success through these games, by bringing all peoples together irrespective of color or creed. To our patrons, may your attendance at the games prove to be exciting, interesting and enjoyable.

District Deputy
NICK LUCYSHYN.

NED HELFRICK

As a sponsoring body, the Knights of Columbus are most appreciative of the opportunity in bringing to you, the athlete, a great challenge, and to you, the spectator, a sport spectacular, one which we feel could surpass last year's games.

The cooperation we received in the promotion of the furtherance of track and field was again in this Our Centennial Year, most overwhelming. To all who contributed in any way we say thank you.

A special vote of thanks to the Saskatchewan Centennial Corporation.

We hope that through our programs for youth we have helped create the climate and provide the opportunities in the development of strong bodies and keen minds through track and field.

We believe — as others do, sport is justified for the effect sport may have in the development of qualities of character — certainly will be valuable to the individual and to society. It no doubt has an effect on social behaviour by sound personal development. Fitness, of course, is not confined to physical condition alone, it is a state of being — a state in which we function most effectively.

We sincerely hope that you will find the Centennial Games of 1967 a highlight in our City and our Province's celebrations.

NED HELFRICK,
Chairman K. of C. Committee,
Chairman of Registration of athletes.

JOHN LARSEN

The Saskatchewan Branch of the Amateur Athletic Union of Canada is proud to be associated with, and in fact be a part of, the Saskatchewan Centennial Indoor Games. The committee organizing this meet has done an excellent job. Saskatchewan is very fortunate in having a large number of interested individuals and organizations who have the time and the talent to put on such a tremendous event for Saskatchewan citizens.

Track and Field is one of the most successful sports operating under the jurisdiction of the Saskatchewan Branch. We hope that this meet will generate more interest in track and field in this province and that all young Saskatchewan citizens will have the opportunity to participate in this activity if they so desire.

This winter the track committee of the Saskatchewan A.A.U. will sanction two more indoor meets in Saskatoon. On February 17th the Western Conference Intercollegiate Athletic Association Indoor Championships will be staged in the Arena. April 26th and 27th will see the Riversdale and Saskatoon Track Clubs host the Saskatoon Indoor Championships in Kinsmen Arena. We hope that you will support these events.

On behalf of the Saskatchewan Branch I would like to thank the Indoor Games Committee, the Knights of Columbus, the athletes and all the citizens of Saskatoon who have contributed to the development of track and field in Saskatchewan through these games.

JOHN LARSEN,
Pres., Sask. Branch A.A.U. of Canada

"THE BUYWAY OF SASKATOON"

HE HELD THE LANTERN WHILE HIS MOTHER CUT THE WOOD...

Remember when? ... Wood boxes to fill ... ashes to take out, irons heating on the back of the stove! Some people like to remember these times as the "good old days."

Today, with the flick of a switch or the

turn of a dial, we can cook, do our laundry, heat our home. And, living will continue to become even more convenient as new uses for electricity and natural gas are introduced to our households and places of business.

*Growing with a Growing

**SASKATCHEWAN
POWER
CORPORATION**

BILL CROTHERS

TOP CANADIAN STARS

A track meet in Canada just wouldn't be a success unless the finest two native stars, Bill Crothers and Dave Bailey, were entered.

Crothers was upset twice during last year's Knights of Columbus meet but he came back in June to shine in the Pan-American Games trials and then won a silver medal for Canada at the Pan-American Games.

Bailey upset American stars in the two-mile race here last year and then became one of the world's rated milers with his performance during the summer season. He ran well under four minutes in a meet in Toronto (his second sub four-minute mile) and he racked up impressive times in meets in California. He also ran in the World Student Games at Tokyo and the pre-Olympics at Mexico City.

Headed by Bailey and Crothers, Toronto will also field a squad in the two-mile relay race. Their team-mates will be John Loring and George Shepherd.

JOHN THOMAS

Outstanding talent always seems available to the Saskatchewan Centennial Indoor Games and this year is no exception.

In the high jump, for instance, John Thomas, owner of the third best all-time jump of seven feet, $3\frac{3}{4}$ inches, has entered again as well as Max Lowe, University of Southern California star who won here two years ago.

In the 600, Charlie Mays of New York's Grand Street Boys club is bound to be a strong contender and has fast times in many outdoor meets to back him up.

Oregon State is sending a couple of fine athletes — Dennis Phillips, fourth-ranked in world pole vaulting and a 17-footer, and Steve Pancoast, Pacific Coast 440 champion last year and probably the man to beat in the 300 metres.

CHRIS McCUBBINS

OKLAHOMA STATE

A Pan-American Games gold medallist, Chris McCubbins, heads the array of talent which will represent Oklahoma State in their inaugural visit to the Saskatchewan Centennial Indoor Games.

McCubbins set a United States intercollegiate record in the steeplechase, won the gold medal in the Pan-Am steeplechase and two weeks later, beat a Hungarian and English star in an international meet.

He is a strong two-miler, with a best 1967 time of 8.54.

John Cook, a former Oklahoma State football star, turned his attention to track in his final season at school and will anchor the two-mile relay team behind Jack Koerber, John Pembroke and Steve Gerkin.

The squad is coached by Ralph Higgins.

The Committee wishes to express its appreciation to **SASKATCHEWAN CENTENNIAL CORPORATION AND CANADIAN CENTENNIAL COMMISSION** for their assistance in this our Centennial Indoor Games.

Co-op... 100% Canadian owned.

PRESTON DAVIS

PACIFIC TRACK CLUB

The Pacific Track and Field club looms as the team to beat in the newly-introduced two-mile relay race, which will be sponsored by the Saskatchewan Centennial Corporation.

The Pacific Club has become the new home of the many stars who formerly competed under the mantle of the now-defunct 49er club.

Last year, for instance, the 49ers set a world record in the two-mile relay at Albuquerque, New Mexico; won the AAU indoor championship; and scored a fine win over Oregon in the New York Athletic Club meet.

The man who anchored each victory, Preston Davis, will be in Saskatoon with the team. So will Darryl Taylor, Darnell Mitchell and Dave Crook. Taylor has been a member of all 14 two-mile relay teams that ever ran for the 49ers. Preston was the 1,000 yard champion at the AAU indoor meet last year; Crook was here as a strong competitor in the 600 and was a former star at Nebraska. Mitchell is just back from Vietnam but running in oldtime form.

Avis trains their girls the way airlines train their stewardesses.

Some recent graduates.

Avis girls, like airline stewardesses, aren't born with the knack for trying harder. It's something they learn at the Avis Training School. The only one of its kind in the business.

And when an Avis girl graduates from it, she knows the car rental business on her side of the counter, from the ground up.

She knows how to look after you quickly. So you can spend less time at the counter and more time in one of our shiny new Plymouths.

She'll help get you to where you're going, even if you've never been there before.

She'll tell you the best routes to take. And what road signs to look for.

She'll tell you where the speed traps are.

What the weather is going to be like.

In fact, she may even remind you to fasten your seat belt.

Welcome to the Saskatchewan Centennial Indoor Games
